Lithium Ion or Lithium Polymer Cells and Batteries (UN 3480 and UN 3481)

Note: Indicated in blue letters are the revised points in January 2020

Section I

- Only cells/batteries with a State of Charge (SoC) not exceeding 50% of rated capacity are allowed.
- For cells and/or batteries with a Watt-hour rating exceeding 2.7 Wh or less, No more than one package may be placed in an overpack.
- For cells and/or batteries with a Watt-hour rating of 2.7 Wh or less, No more than one package may be placed in an overpack.
- For cells and/or batteries with a Watt-hour rating exceeding 2.7 Wh, No more than one package may be placed in an overpack.
- For cells, the package containing more than 5 cells, or batteries, the package containing more than 2 batteries must not exceed the number required for the equipment's operation plus 2 spare cells/batteries.
- For batteries, the package containing more than 2 batteries, No more than one package may be placed in an overpack.
- The package containing cells/batteries must not exceed the number required for the equipment's operation plus 2 spare cells/batteries.

Section II

- For cells and/or batteries with a Watt-hour rating exceeding 2.7 Wh or less, No more than one package may be placed in an overpack.
- For cells and/or batteries with a Watt-hour rating of 2.7 Wh or less, No more than one package may be placed in an overpack.
- For cells and/or batteries with a Watt-hour rating exceeding 2.7 Wh, No more than one package may be placed in an overpack.
- For cells, the package containing more than 5 cells, or batteries, the package containing more than 2 batteries must not exceed the number required for the equipment's operation plus 2 spare cells/batteries.
- For batteries, the package containing more than 2 batteries, No more than one package may be placed in an overpack.
- The package containing cells/batteries must not exceed the number required for the equipment's operation plus 2 spare cells/batteries.

Section III

- Only cells/batteries with a State of Charge (SoC) not exceeding 50% of rated capacity are allowed.
- For cells and/or batteries with a Watt-hour rating exceeding 2.7 Wh or less, No more than one package may be placed in an overpack.
- For cells and/or batteries with a Watt-hour rating of 2.7 Wh or less, No more than one package may be placed in an overpack.
- For cells and/or batteries with a Watt-hour rating exceeding 2.7 Wh, No more than one package may be placed in an overpack.
- For cells, the package containing more than 5 cells, or batteries, the package containing more than 2 batteries must not exceed the number required for the equipment's operation plus 2 spare cells/batteries.
- For batteries, the package containing more than 2 batteries, No more than one package may be placed in an overpack.
- The package containing cells/batteries must not exceed the number required for the equipment's operation plus 2 spare cells/batteries.
